

# MAKING IT EASY AND AFFORDABLE TO BRING SOLAR TO FAIRBANKS

Fairbanks Solarize+ is a volunteer-led campaign of community members and organizations that aim to make it easier and more affordable to go solar in the Fairbanks North Star Borough! Alaskans are working together to put Solar Photovoltaic (PV) panels on the rooftops of homes, businesses, and more.

## HOW DOES IT WORK?

Fairbanks Solarize+ will bring community members together to purchase solar panels as a group to receive discounted rates on upgrades, solar panels, and installation. Together, communities will choose the best Solar PV Installer for their area and based on discounts, grants or loans, community needs, and installation times. The more people that sign-up, the deeper the discounts!

## WHY THE +?

Renewable energy and energy efficiency go hand in hand. Investing in energy efficiency, in addition to solar, is cost-effective. The better your energy efficiency is, the lower your energy costs. **Fairbanks Solarize+** will make it easier to choose the best Solar PV system to meet your energy efficiency needs. .

## WHY SOLAR IN FAIRBANKS?

There are so many reasons to invest in Solar Power, and for the Interior, it is a long term renewable clean energy option. Community solar projects are affordable, accessible, efficient, and good investments in our communities!

# INTERESTED? GET STARTED BY FOLLOWING THESE STEPS

## 3. CHOOSE THE BEST INSTALLER.

After reviewing the RFPs from our Solar PV Installers, choose the one that will give your community the best cost, efficiency, and discounts.

## 4. ENJOY SOLAR POWER!

Get your PV systems installed and enjoy your new clean energy investment!

## 1. GET YOUR COMMUNITY INVOLVED.

Visit your friends, neighbors, and business owners in your area and see if they're interested in the Fairbanks Solarize+ campaign.

## 2. MAKE A PROPOSAL.

Once you've gathered up your community, meet up with our Fairbanks Solarize+ organizers to help you assess your needs, and create a Request For Proposal (RFP) to our local Solar PV Installers.
