**Questions (PUBLIC, to be used on our website if you are endorsed):**

*(150 words or less)*

**1. We support a just transition from our current extractive economy to an equitable, locally-sustainable clean energy economy in which all Alaskans benefit. How does your vision for Anchorage support a just transition? How do your goals intersect with issues like clean air and water, climate change, and a strong democracy?**

**Questions (PRIVATE, not to be shared publicly beyond our staff/board):**

*(Please keep responses less than 500 words each)*

**1. Please describe what has motivated you to run for and serve in public office. What is your motivation for running in this race now?**

**2. What is your vision for Anchorage?**

**3. Transitioning to a 100 percent clean energy economy is necessary to avert the worst impacts of the climate crises while rescuing our workforce, diversifying our economy, saving Alaskans money, and protecting our health and well-being. Clean, sustainable energy continues to grow rapidly as technology prices have plummeted. However, Alaska's economy and government services are still heavily dependent on oil extraction, the emissions of which are a major contributor to climate change.**

**a. Do you support transitioning to 100 percent clean energy no later than 2050 to help build pollution-free communities?**

**(mark one) YES / NO**

***Optional: Why or why not? (100 words or less)***

**b. Do you support Anchorage's Climate Action Plan, including recommendations like improving transportation with electric bus fleets and investing in energy efficiency upgrades? With solutions in mind, what specific policies at the city level do you support to reduce our state's carbon emissions and slow the harm of climate change?**

**4. Issues of racial equity and social justice have a direct relationship with issues of environmental protection. How would you work with communities most directly impacted by climate change and environmental threats to identify and advance solutions ?**

**5. We believe Anchorage has potential to lead Alaska in becoming the most engaged electorate in the country. What efforts will you make as a candidate and as an elected official to reduce barriers for systematically excluded residents to engage in our local democratic process?**

**6. Have you read our expected [Code of Conduct](#), and will you adhere to these expected behaviors?**
