Question (PUBLIC CANDIDATE BLURB, *to be used on our website if you are endorsed*):

(100 words or less)

1. **Please describe what has motivated you to run for and serve in public office. What is your vision for your community? How does that vision intersect with issues like clean water and air, healthy salmon habitat, climate change, and a strong democracy?**

Questions (PRIVATE, *not to be shared publicly beyond our staff/board*):

2. We believe that investing in the education, community leadership, and civic engagement of our young people is critical to the long-term health and sustainability of our state.
 - a. **Do you support having a student seat on the school board? (*mark one*) YES / NO**
 - b. **How would you empower and work with young Alaskans to participate in the political process? What efforts will you make as a candidate and as an elected official to reduce barriers for residents and young Alaskans to engage in our local democratic process? (100 words or less)**
3. Transitioning to a 100 percent clean energy economy is necessary to avert the worst impacts of the climate crises while rescuing our workforce, diversifying our economy, saving Alaskans money, and protecting our health and well-being. Clean, sustainable energy continues to grow rapidly as technology prices have plummeted. However, Alaska's economy and government services are still heavily dependent on oil extraction, the emissions of which are a major contributor to climate change.
Do you support transitioning to 100 percent clean energy no later than 2050 to help build pollution-free communities? (*mark one*) YES / NO
Optional: Why or why not? (100 words or less)

4. Racial equity and social justice are intertwined and necessary to advance environmental protections and democracy. The communities on the frontlines of the climate crises, pollution, environmental racism and injustice are often the same communities continually excluded from the democratic processes. We believe that access to free and fair elections is one of the core democratic values we hold dear as Alaskans, and that all Alaskans have the right to meaningfully engage in, and influence the decisions impacting their rights, resources, and livelihoods.
 - a. **Do you support a curriculum that prioritizes science and accurate history, including the history of colonialism? (*mark one*) YES / NO**
 - b. **Do you support the right to freedom of gender expression and other expressions, including within school? (*mark one*) YES / NO**

5. **Have you read and signed our expected Code of Conduct (below)?**
